

"Building the foundation of tomorrow."

CAPABILITY STATEMENT

ABOUT US

Lewis Contracting Services, LLC is a minority-owned, full-service heavy civil construction company delivering high-quality infrastructure solutions across both public and private sectors. With expertise in site development, earthwork, underground utilities, and drainage infrastructure, LCS provides comprehensive construction services that support the successful execution of complex projects from initial site preparation through completion. Our diverse portfolio includes work for government agencies, municipalities, educational institutions, aviation facilities, and private developers.
